## What's my story?

All my working life has been in banking. I started 18 years ago in retail banking, worked my way up to branch manager, and then progressed into my current role in commercial banking.

I understand that entrepreneurs need proactive advice and guidance from a trusted advisor to make the best financial decisions for their businesses and themselves. My passion for solving problems and building relationships is founded on a Bachelors in Engineering, Post-Graduate Diploma in Management, and Masters in Financial Economics.

I find value in my everyday work through meeting new people, learning about their businesses' challenges and opportunities, and applying my analytical skills, knowledge, and experience to help members meet and surpass their goals.

**Call or email and let's chat about how I can help you achieve your business goals.**
